CASE STUDY

HIPAA One® Engages With Chase County Community Hospital To Help Organization Become Familiar With Security Risks

Chase County Community Hospital & Clinic is a 23 bed critical hospital and remote clinic located in Imperial, Nebraska. Their team believes they have a **strong obligation** to protect their patients' data and are putting the processes and procedures in place to do so.

THE CHALLENGE

Chase County Community Hospital & Clinic had never performed a [HIPAA Security Audit](#) and needed an expert HIPAA consultant to come in and assess their systems' current state.

IT Manager, Dustin Harris became familiar with HIPAA One® by searching various websites and online forums and was impressed with their pricing and no pressure sales process. "It was more informative than salesy" said Harris.

ENTER HIPAA ONE®

Steve Marco, CEO of Modern Compliance Solutions and owner of HIPAA One® provided Mr. Harris and Chase County Community Hospital & Clinic with a thorough HIPAA Security Audit and according to Harris, "found a lot of security risks in current policies and procedures that needed to be addressed immediately".

**DUSTIN HARRIS,
IT MANAGER:**

"Steve and his team were very polite, professional, and easy to get along with."

"I am almost certain that we will be using the HIPAA One® online software on an ongoing basis!"

When asked what he liked best about working with HIPAA One®, Harris noted, "We were able to do a lot of the leg work before Steve and his team came on site. Once on site, they were very polite, professional, and easy to get along with. Our whole team loved working with them!"

Harris also stated that "the way HIPAA One® has our reports setup in their software and all risk are identified and prioritized is very helpful."

Will Chase County Community Hospital & Clinic be working with HIPAA One® again?

Harris responded, "I am almost certain that we will be using the HIPAA One® online software on an ongoing basis!"
